GAM

The gold standard in healthcare quality measurement
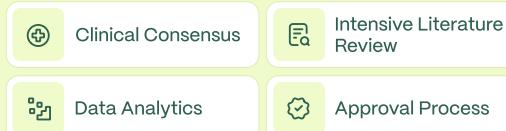

↳ About GAM
Global Appropriateness Measures

GAM is an innovative, physician-led healthcare analytics company dedicated to reducing instances of low-value care and overtreatment — main drivers of the **$760B wasted in US healthcare*** each year.

Serving employers and TPAs, health plans, health systems, and HIT companies, GAM's clinical consortium develops novel, clinically sophisticated appropriateness and quality measures.

Curating Meaningful Measures Through

⊕ Clinical Consensus	🔍 Intensive Literature Review
▦ Data Analytics	✓ Approval Process

Trusted by

VA | U.S. Department of Veterans Affairs   BalladHealth.   Anthem Blue Cross

LANTERN   Hinge Health   H·E·B

↳ Drive High-Value Care
with novel, data-driven metrics rooted in clinical wisdom

Anchored by Appropriateness, Quality, and Cost, GAM's library spans 300+ measures across 40+ specialties, including:

⊕ Primary care	🦴 Musculoskeletal care
🧫 Oncology	🫀 Cardiology
	🧬 OB/GYN

⊕ Appropriateness + **⊘ Quality** + **$ Cost**

Appropriateness	Navigate members away from clinicians with inappropriate practice patterns, such as over-utilization of imaging and unnecessary surgery.
Quality	Guide members to high-quality clinicians with the best outcomes in each clinical category.
Cost	With in-network cost variance of 1000%+, incentivize members to select the best value facilities for their care.

↳ Appropriateness in Action

This real-world case study of two deidentified physicians highlights the immense variation in cost between an inlier and outlier, both of whom are performing the same services in the same geographic area. GAM's technology and analytics reveal these unwarranted variations in practice across hundreds of domains.
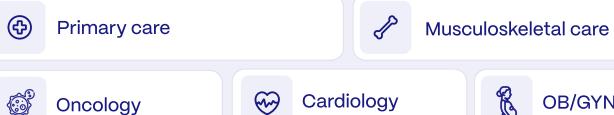

$12,352
average cost difference per patient between physicians

←

↳ Clinician Comparison

	Physician 1 ☑ Inlier	Physician 2 ⏱ Outlier
Low-Risk C-Section Rate	12%	58%
Location	Jacksonville, FL	Jacksonville, FL
Average Cost Per Delivery	$14,820	$27,172
Annual Cost of Deliveries	$1.85M	$3.39M

☑ **Inlier** Clinician practicing within the boundaries of appropriate care
⏱ **Outlier** Clinician with unwarranted practice variation
