236
Institution Affiliations

25
Years of Academic Partnerships

We take pride in our speakers and the experience they bring to our continuing medical education (CME/CE) curriculum. Not only are they faculty at some of the best medical schools and healthcare institutions in the U.S., but they are also fellow practicing clinicians and experts in their field. For this reason, Pri-Med faculty are some of the most experienced, dynamic, and diverse educators in the country. As clinicians on the front lines of primary care, Pri-Med faculty stay up to date on the latest clinical developments, enabling Pri-Med to develop timely, relevant CME/CE content and courses at both in-person conferences and on Pri-Med.com, our digital learning platform.

The current Clinical Advisory Board is comprised of leading clinician educators who work together to curate Pri-Med's diverse CME/CE curriculum based on the latest clinical insights and guidelines.

Frank J. Domino, MD

Professor, Family Medicine and Community Health, University of Massachusetts Medical School, Worcester, MA
